| Emergency procedures                         | : Evacuate unnecessary personnel. Stop leak if safe to do so.   |
|--|---|
| 6.2. Environmental precautions               |   |
| Avoid release to the environment.            |   |
| 6.3. Methods and material for contain        | ment and cleaning up  |
| For containment                              | : Absorb spilled material with sand or earth. Contain any spills with dikes or absorbents to<br>prevent migration and entry into sewers or streams. Stop leak, if possible without risk.                            |
| Methods for cleaning up                      | : Take up liquid spill into absorbent material.   |
| Other information                            | : Dispose of materials or solid residues at an authorized site.   |
